

Double your fundraising with dollar matching

Dollar matching is when a business or community organisation commits to match each dollar you raise. Its great way to double your impact and raise awareness of LFC.

Identify the appropriate person in your organisation to speak to. This may be HR, People and Culture, the Corporate Social Responsibility team, or even the CEO.

Determine if your workplace has a Giving program in place. If so, great! They can step you through the process. If your workplace doesn't have a program in place, ask if there is a budget to support charitable causes like LFC - you may be able to secure a donation!

Contact your local community group such as Rotary, Freemasons and Lions Club, plus sporting and church groups. These groups often support charitable causes and fundraising efforts in the community.

Recognise any support you receive. Use your LFC dashboard blog to let your network know. Post to social media tagging your workplace or the community group supporting you.
